

If you thought SIS is just an IT solutions company, re-imagine.

At SIS, we are much ahead of the times. Which is why, we can bring you a better tomorrow - today. With products and services that make you experience the future, SIS is all about re-imagination.

You can soon forget 'voice only calls' and interact through VFONE - India's first video telephone. This revolutionary device is all set to change the face of telecommunication. Let VFONE replace your normal phone.

Also, get ready to experience cloud computing.

Those who know us as SIS also know us as one of the fastest growing Information and Communication Technology (ICT) companies. With a turnover of over ₹1500 cr and 1000 plus associates operating in 17 states with more than 100 support centers, we are India's largest Total Solutions Provider. Our ambition is to make you re-imagine the future, and make it just as you want it to be.

OUR EXPERTISE

• ICT Hardware Manufacturing • System Integration • IT Solutions • Telecom
